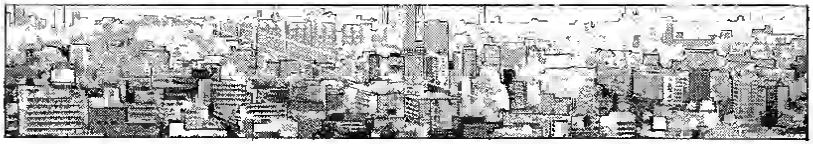
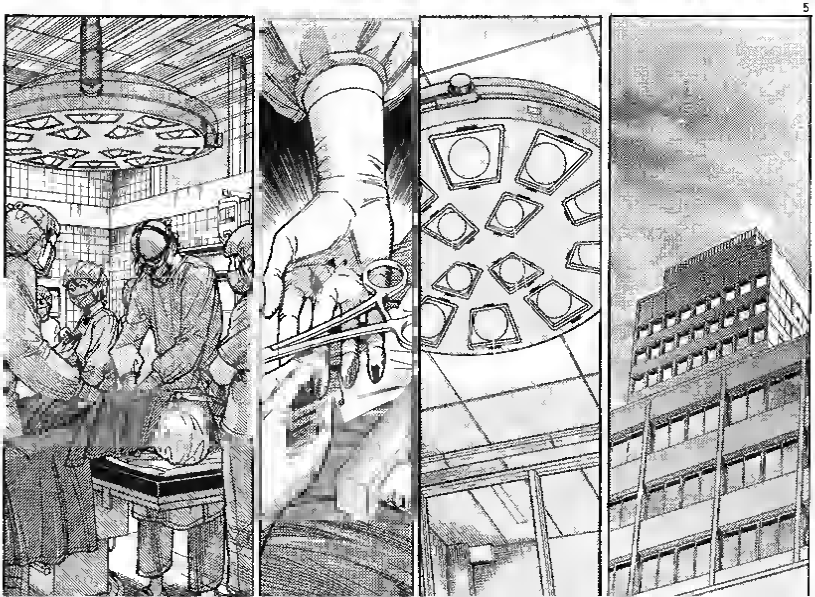
Chapter 159 Noguchi's principla

Chapter 159 –
Noguchi's principle

OUTERWORLD SCANS

doesn't seem to be doing that well.





That's Asada.

You worked together with him at an NGO, am I right?
Yeah, we performed several surgeries together.

He's performing a difficult combined* valve surgery
with such ease.
* COMBINED MITRAL AND AORTIC VALVE SURGERY
This is just my personal impression but,
I think his skills keep improving since he came here.

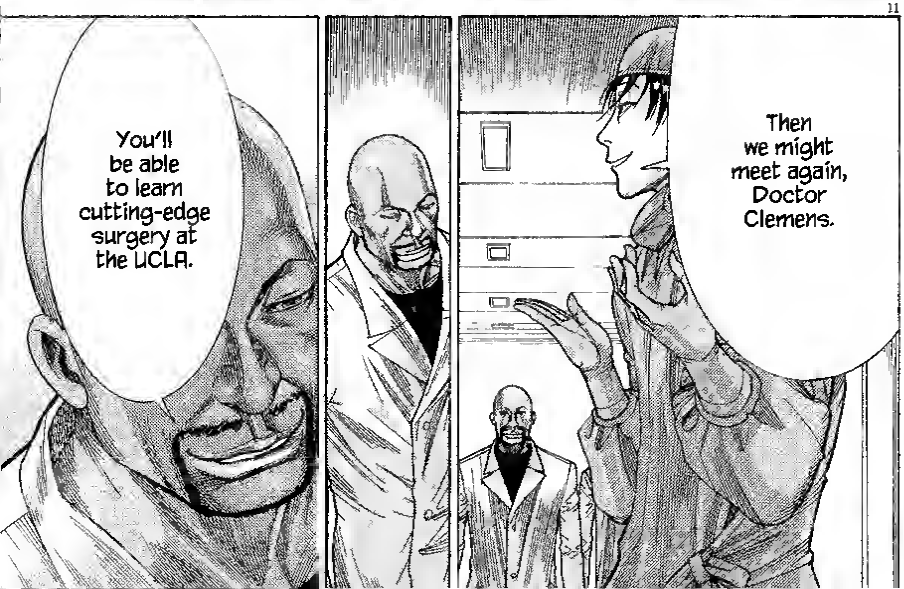
It seems he was in a slump for over a year before coming here.

I saw a footage of one of his surgeries here at Meishin and...
So it seems.
I got a bad feeling.
He wasn't cutting corners,
his surgical procedure was splendid, but...
I got this "was his surgical style really like this?" kind of feeling.
huh?

However,
The Asada in front of me right now
is just like the time at the NGO. I'm not getting any bad vibes.
His long rehabilita-tion

from the slump
is over.

Hey.
How's it going, Doctor Clemens?
Thanks for taking care of me at the NGO.
Kuni-tachi told me, you'll be going to the UCLA,
once the election here is over. My Bond University has an exchange program with that same University.
Hehehe.
The one who was taken care of was me.



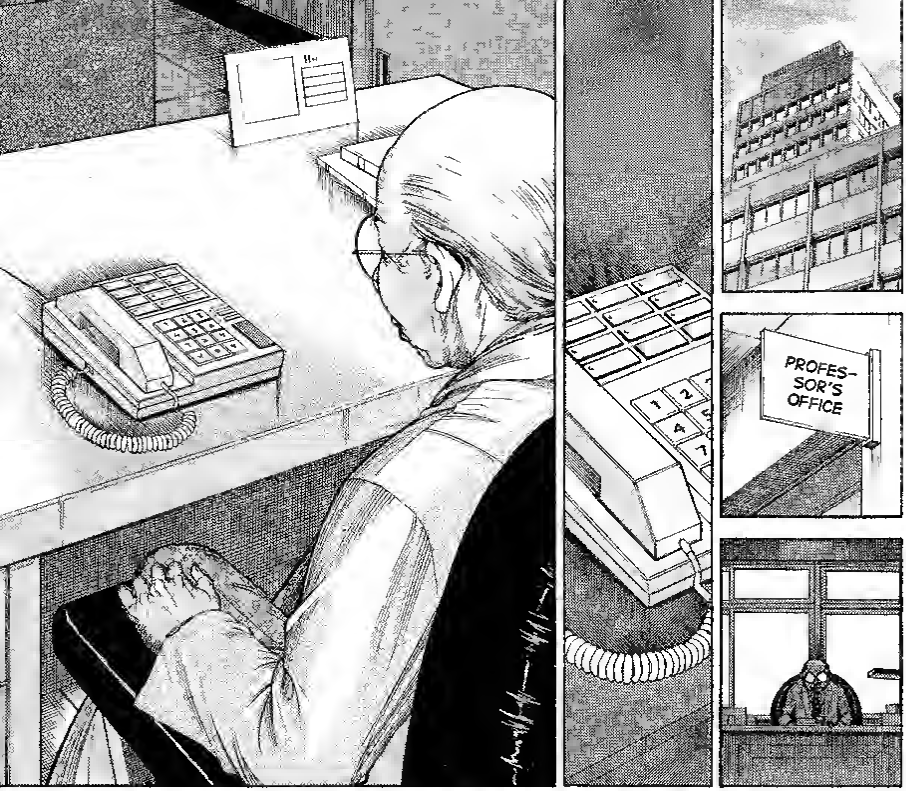
Then we might meet again, Doctor Clemens.
You'll be able to learn cutting-edge surgery at the UCLA.

OUTERWORLD SCANS

He's skilled.
He helped the surgeon a lot.
That's Doctor Arase.
The anaesthesiologist that got high in the bathroom...
Erm...
Yes he is.
However,

He isn't accom-plished.
Play-ing with drugs,
he's numb-ing his senses on his own.

Such a foolish man...



PROFES-
SOR'S
OFFICE

Any news from the ministry for Health, Labour and Welfare?

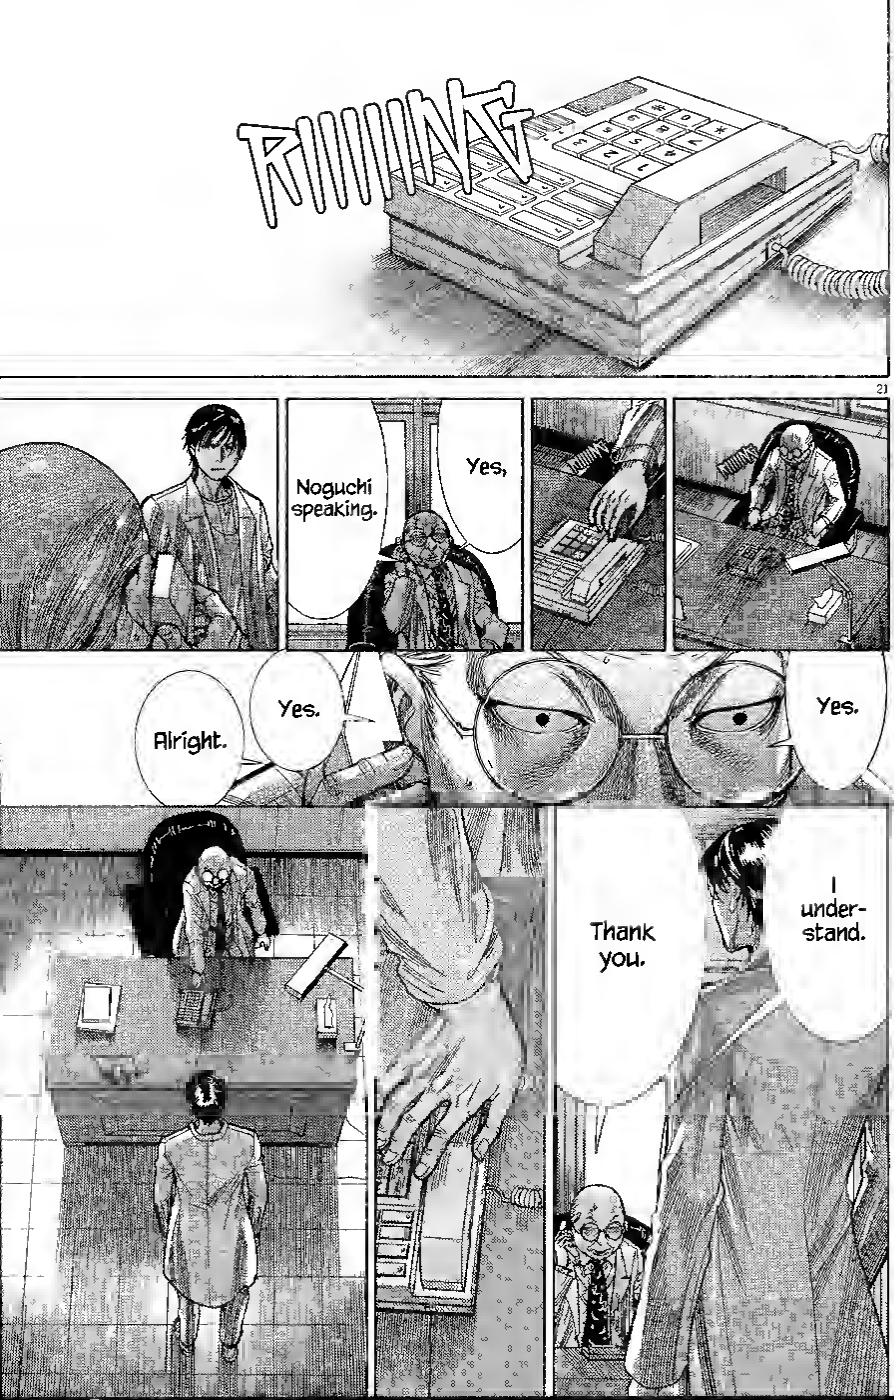
Doesn't look like it.
you might think you still have three options but,
Noguchi-sensei,
16
Kunitachi said he'll do it.
to decide for Kunitachi's option.
It's already too late

Or you can get an artificial blood vessel replacement.
You only have two options, you can either do as Gunji says, and wait till you die.
It'll probably end in failure.
I can perform the surgery.
If you don't think Katou is capable enough,
I'll do everything in my power to ensure you a quick re-habilitation.
you can give it another go once you're healthy.
I under-stand you don't want to give up your chance in politics but,

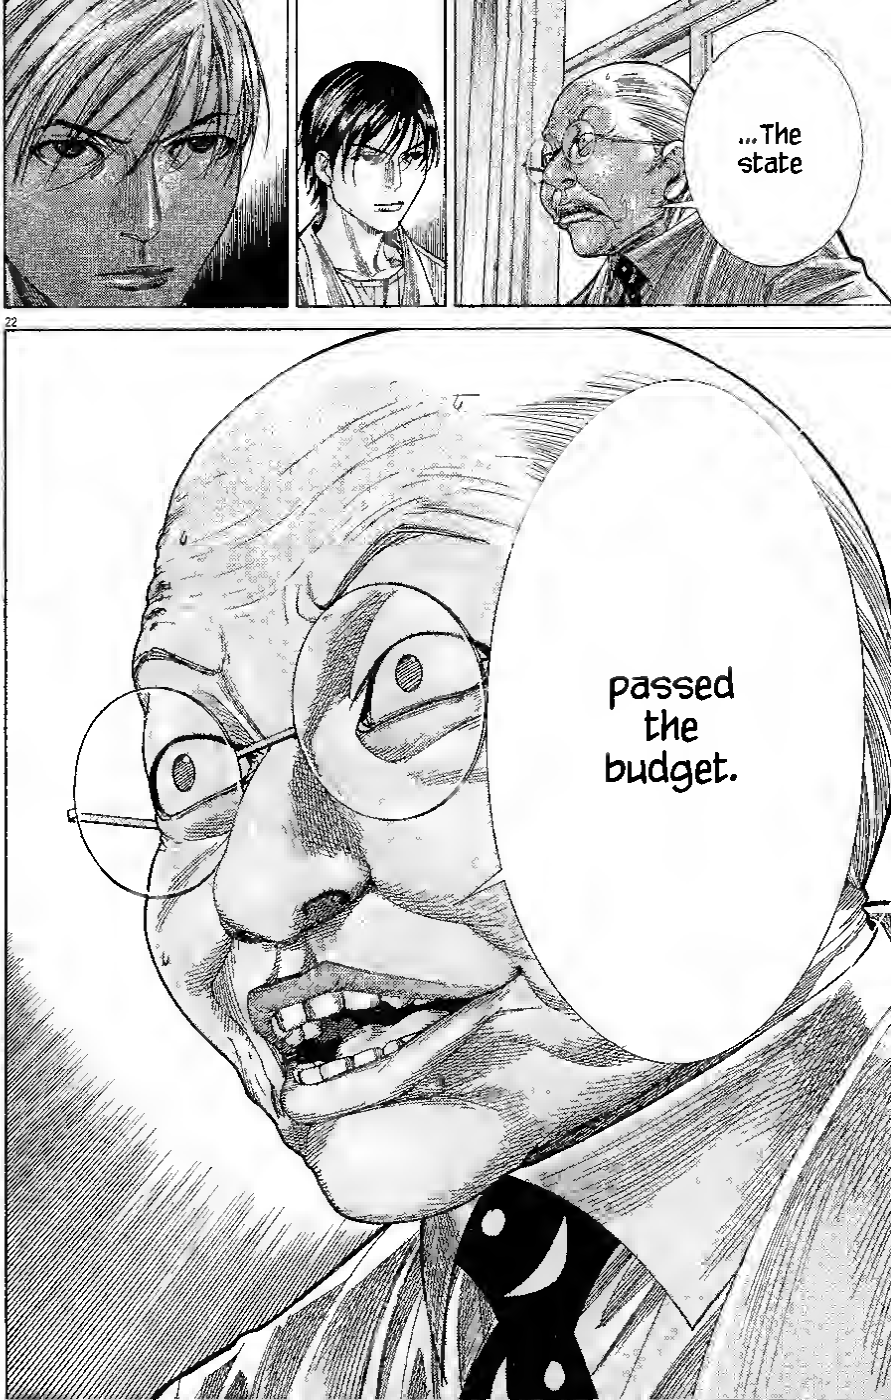
Yesterday evening
I finally talked to Saki-chan.
She told me to put my life first.
And

since she doesn't know much about medicine, she told me to choose the option I find most suitable.
Then you must choose the one with the most chances of success.
I think,
she would agree with me choosing the option I deemed best.
I always take her feelings into considera-tion but,
there are lines I can't cross.

The man she fell in love with is that type of man.
And I believe she'll understand that.
That's just the way I am.
Ringing



OUTERWORLD SCANS



...The state
passed the budget.

I did it...
Haha.
Fufufu,
If it's in a day or two, you still have a chance.
Then decide for the stent surgery.
hahaha,

No way.

I'll have a meeting next weekend.
The surgery will have to wait until then.
If you plan on waiting that long, I advise you against the stent surgery.
You should opt for the artificial blood vessel replacement surgery.
if the budget gets passed,
you should have the surgery immediately after the meeting.
I don't want a replace-ment surgery.

If I have the surgery directly after the meeting,
then the plan we decide on might get cancelled.
I need to fool them until things get on track.
I have no other choice, but to wait until the last minute
and then get a stent.
Then,
I will perform the surgery.
Designate me.

Why?
Because Kunitachi-sensei
isn't as skilled as I am.

I refuse.
...
Having a vagabond perform the surgery,
the people will be easier to calm down, after hearing that the surgery was performed by a well renowned cardiac surgeon.
And when that time comes,
Because the news of me getting a stent surgery will eventually come out.
Why?

just wouldn't sit well with the thick headed citizens.
ER? Connect me to Kunitachi-kun.
Kunitachi-kun?
I've decided on the surgery.
